

# Signature Lounge

"Grooming passion for men", is Signature Lounge's slogan and well....they deliver grooming with a passion! They offer everything from haircuts, face shaping, (we didn't know guys are into threading eyebrows, must be this 'metrosexual' craze going around) manicures, pedicures and of course facials, massages and the very painful waxing. (Which guys are waxing their under arms I want to know? - ouch) I decided to go for the more traditional massage and facial. I was assigned to the 'Elemis Lavendar Facial', as I apparently have oily skin (too many disco balls will do this to you). The masseuse went on to give me one of the best massages I've ever experienced on my face. She paid attention to my feet while we waited for the mask to take its effect. Pure bliss! The session ended with me almost falling asleep (this is a good sign by the way). I was then given the most popular massage at the Salon, the 'European Full Body Massage', which goes at the fairly priced 260aed. Now I've been to a lot of massages in Dubai, but I can well and truly say this is one of the best yet. Attention to detail and with each stroke I went deeper into my "coma", again ending up drooling from enjoyment towards the end.

The staff and atmosphere is friendly and welcoming, although the only downside is the size, so during a facial you can hear the hair dryers next door. But that aside, this was a totally relaxing, indulgent experience that will guarantee to have you all drooling in no time!
